

Shihlin Electric General Inverter SE3 Series  
Parameter Instrucion

V1.05

Thank you for choosing Shihlin inverters SE3 series.

This instruction provides the parameter list for SE3 series. User can refer to setting range and factory setting value of each parameter in order to adjust the inverter. Before adjusting parameters, please be sure to carefully read Installation Instruction, so that the inverter can be used in right and safe way.

\*Actual maximum output frequency is 599Hz, Even if the parameter setting exceeds 599Hz, the maximum output frequency is still 599Hz.
