

Technical notification on uniforming the direction of installation of the SMP 400V oil seal

First of all, thank you for using and supporting Shihlin's products for a long time. In order to optimize the design, the SMP 400V oil seal spring is now changed from "visible" and "invisible" two ways to "visible" one way, as explained below

A、 Objective models:

SMP 400V

B、 Change identification

Before		After(visible)
invisible		
visible		

C、 Effective date

1. The alternative period will be implemented from November 2021.
2. Alternative period products in circulation there are coexisting situations, please understand.
